WORK EXPERIENCE

Lead Welder
Riverside Sheet Metal

02/2014 – Present   *Medford*
Custom Architectural Metal Fabrication

Achievements/Tasks
- Designing, cutting, bending, welding metal and programming machinery to create various different custom sheet metal projects.

EDUCATION

Computer Science
Bunker Hill Community College

2015 – 2016   *Boston*

The Odin Project
Open source web development curriculum ⧉

01/2017 – 02/2018

SKILLS

Ruby   Ruby on Rails   Javascript es6   React JS

HTML5   CSS3   Git Version Control

Heroku Deployment   NPM   SQL   TDD

PERSONAL PROJECTS

Chess (07/2017)
- Written in Ruby, a 2 player command line version of chess.
- Features include all of the standard rules you would have in a normal chess game (castling, el passant, pawn promotion).

Weather App (01/2018)
- Written in vanilla JavaScript, this application utilizes the Openweathermap API.
- Application provides the current weather and a 5-day forecast for every zip code in the USA.

Jakebook (12/2017)
- Ruby on Rails Facebook clone.
- Includes most of the major functionality of it's bigger brother including posts, comments, likes, dislikes, friend requests.
- Uses Devise for authentication and Oauth for signing in through Facebook.

ACHIEVEMENTS

The Odin Project (01/2017 – 02/2018)
I am exceptionally proud of this accomplishment, completing 57 different programming projects and finishing 100% of the curriculum's material.
